HOW CATARRH IS CONTRACTED

Mothers are sometimes so thoughtless as to neglect the colds which their children contract. The inflammation of the mucous membrane, at first acute, becomes chronic and the child has chronic catarrh, a disease that is seldom cured and that may prove a life's burden. Many persons who have this troublesome disease will remember having had frequent colds at the time it was contracted. A little forethought, a bottle of Chamberlain's Cough Remedy judiciously used, and all this trouble might have been avoided. Obtainable everywhere.

dewin

Why is it that as soon as a man does something that is really worth while his friends imagine he is狂妄 and needs a haircut?

Some people go to the moving picture theaters to listen to the gossip of these sitting near them, while others go to see the pictures.

One of the saddest things that the average individual does in these days is to suggest ways and means of reforming everything under the sun.

It is perfectly useless to tell another that he is going to make a mistake even when you are absolutely certain. He will believe only when he finds that he has made it.
